**Il Bronzetto** based in Florence, Italy, specializes in finely crafted bronze and brass hardware, especially door handles. With over five decades of expertise, the company blends traditional Italian artistry with contemporary design, offering a range of customizable products that reflect elegance and durability. Their handles, fixtures, and decor items are made with high-quality materials, making Il Bronzetto a trusted name for those seeking luxury, sophistication, and timeless design in architectural details.

## Values & services

### Old knowledge and new technologies

“Our products are in fashion but they don’t follow trends” says the general manager. These are products that were made in 1963 are still produced today with the extra help of technology that supports the classic craftsmanship, but does not replace it. The knowledge of materials extends from brass and bronze, also to other metals such as iron and other materials such as semi-precious stones, precious marbles and crystals, all natural, durable, selected and quality materials.

The range of products is very wide: lighting, tables, handles, bathroom accessories, accessories for fireplaces etc, grouped into four collections according to different lines, starting from the classic style to the modern one up to contemporary design, trying to respond market trends and customer needs. The common denominator of all products is the fact that they are the result of a long experience and a deep knowledge of materials and their processing techniques.

Tailor-made work is also carried out starting from the design to the creation of the final product with attention to the smallest details. The customization of the products is followed with high professionalism and accuracy, as the team of the company Il Bronzetto is able to support the designer and anyone who wants to approach the custom-made creation of an artifact, offering CAD design, 2 and 3D modeling services, rendering and prototyping, aimed at verifying the feasibility of projects, optimizing costs and resources.

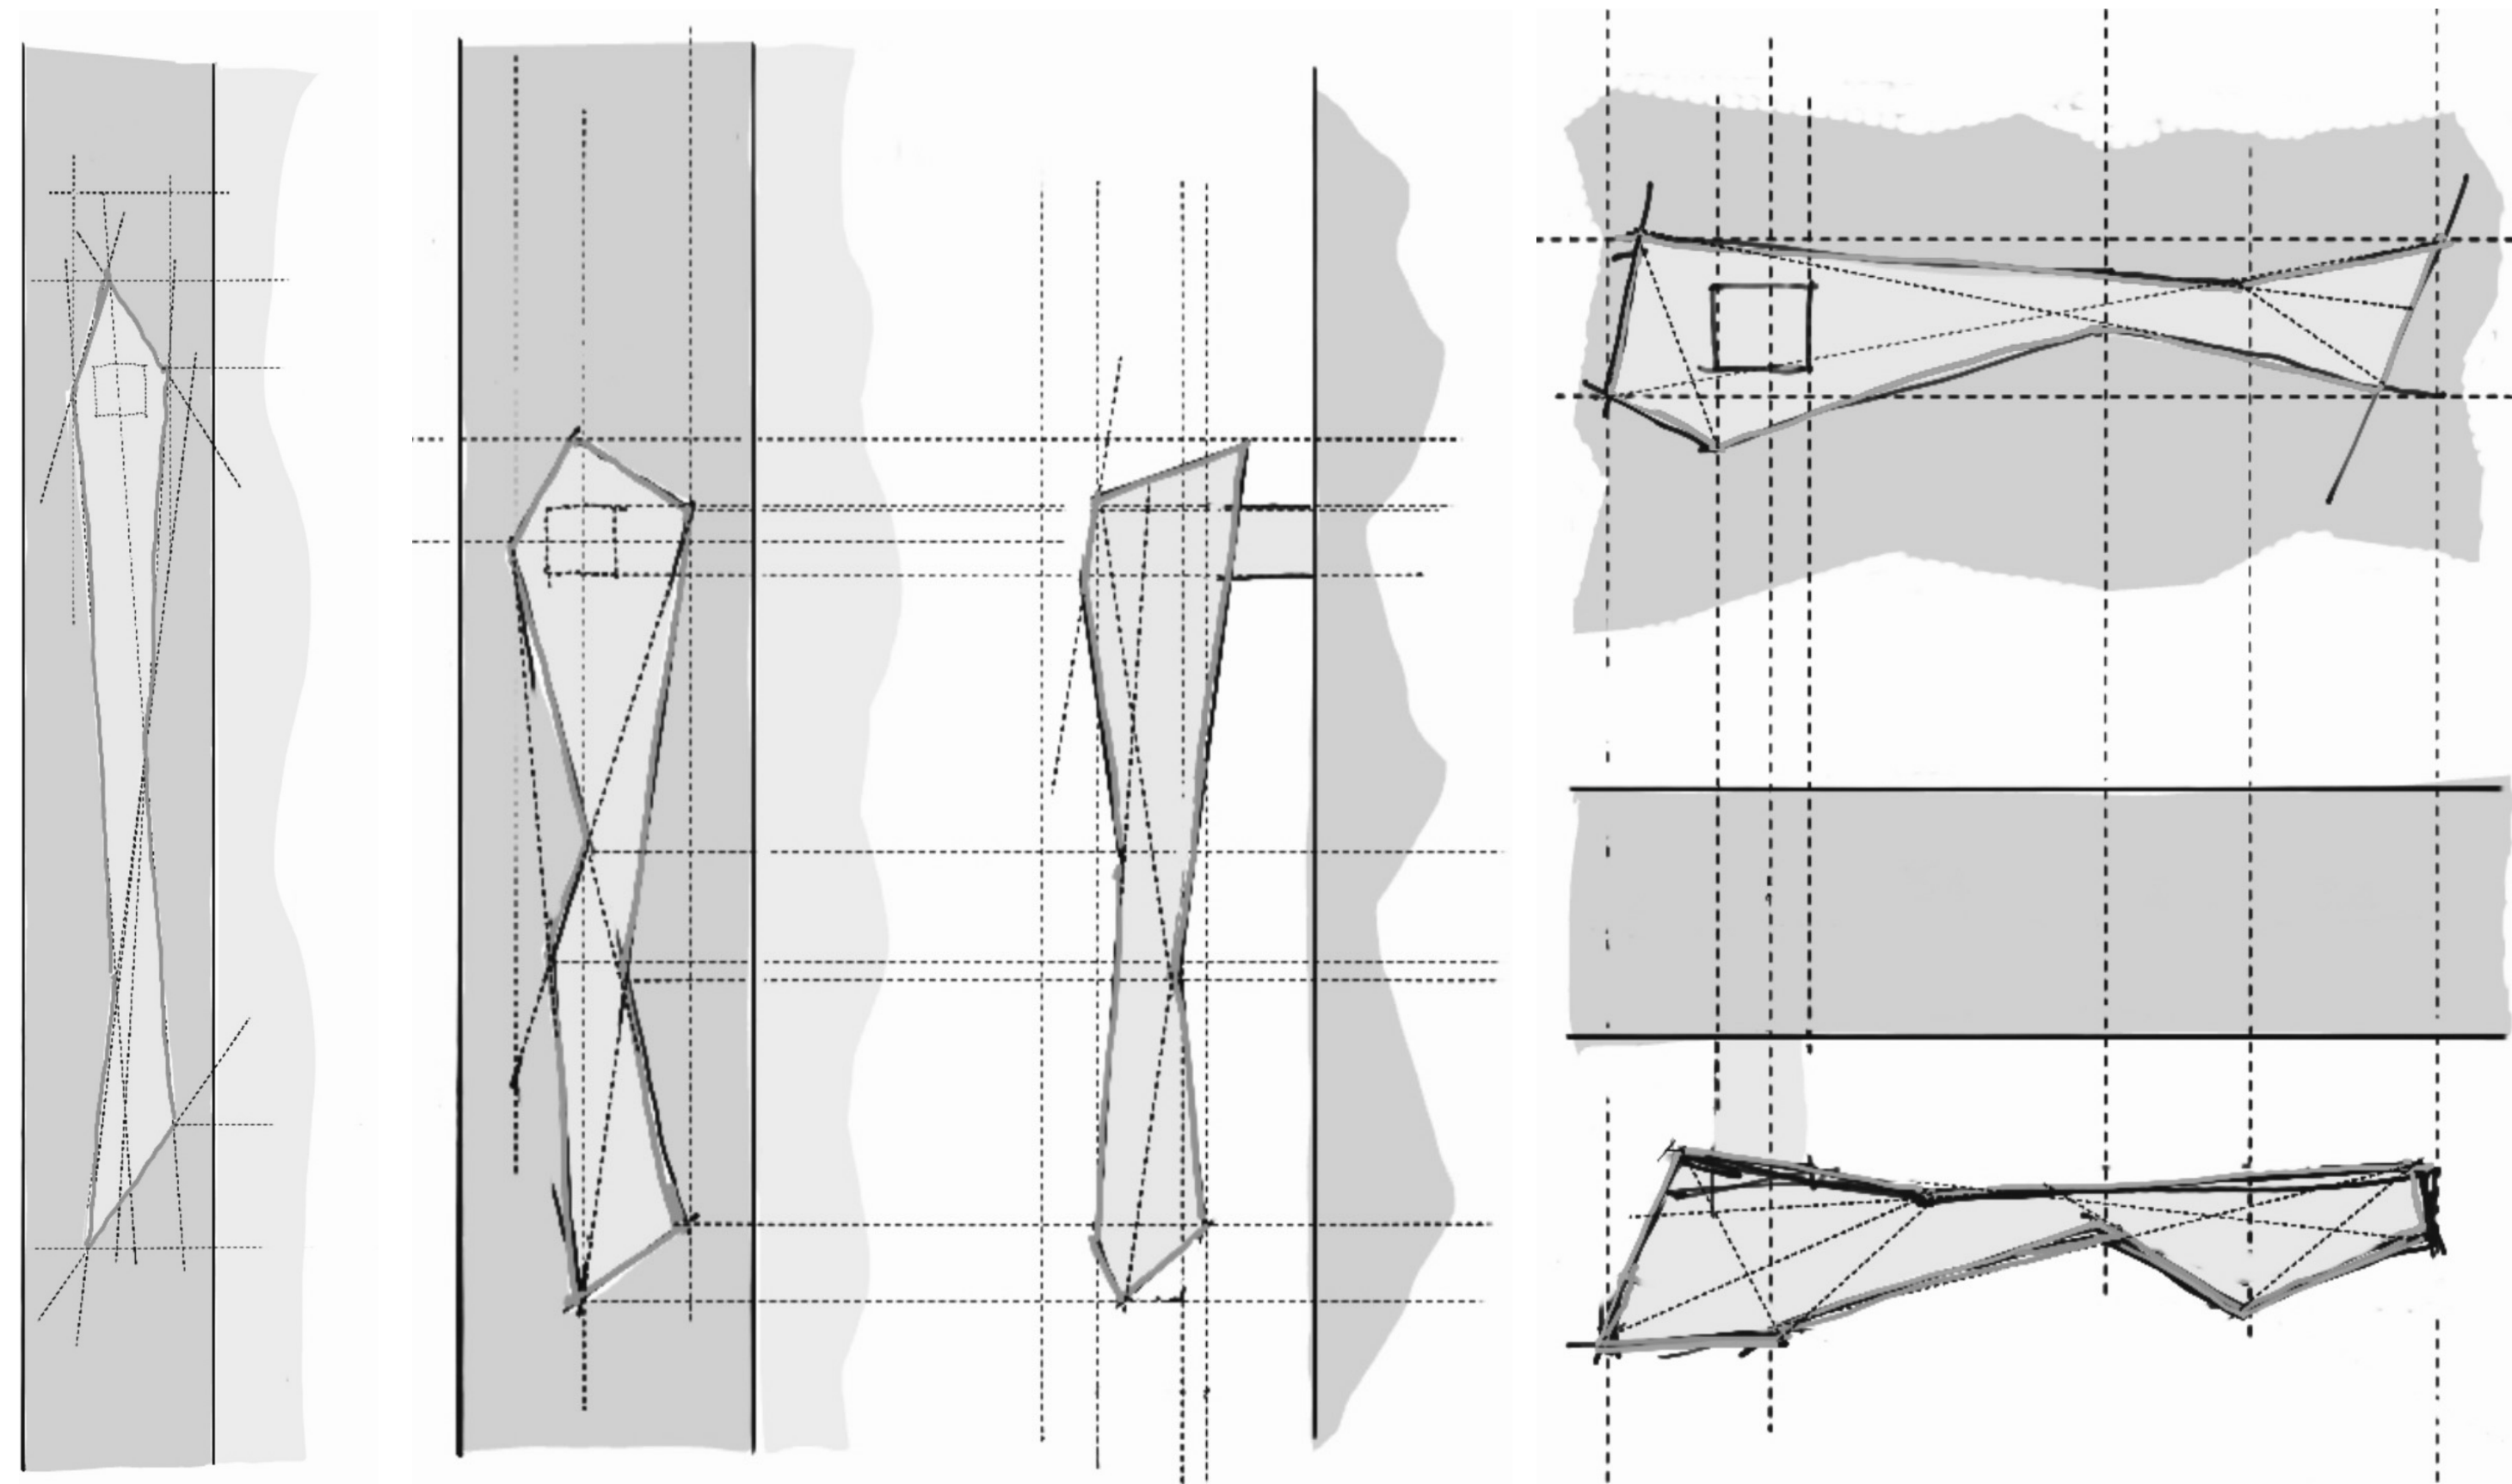

DESIGNER

## Raffaele Oppido

- Founding Partner & Creative Director

OMNIDE

**Raffaele Oppido** founded Omnide alongside Ivan Lazzaroni in 2013 after working at various offices such as Arup Associates, Arup Sport, Rafael Vinoly and Atkins in London, UK. Raffaele with OMNIDE team approaches every project with quality and individuality, operating both in residential and commercial fields. Throughout his extensive experience, Raffaele has developed a reputation for designing buildings that are as programmatic and technically innovative as they are cost and resource conscious.

Edge by Omnide Architecture Studio

Edge, an avant-garde door handle that blends precision, geometry, and craftsmanship, designed by Omnide Architecture Studio. The Edge handle reflects a contemporary design philosophy where sharp lines and angular forms converge to create a bold, sculptural aesthetic.

Inspired by the concept of cutting-edge architecture, Edge is more than a functional object; it is a statement piece that transforms any door into an artistic element. The faceted, geometric form captures light and shadow, giving it an ever-changing appearance depending on the angle and surrounding environment.

Crafted from premium materials, Edge offers several luxurious finishes, including Nickel, which enhances the sleek, brushed texture and highlights the handle’s intricate design. Each finish is designed to cater to various interior styles, from modern minimalism to high-end sophistication.

Key Features:

**Distinctive Geometric Design:** The sharp, angular form is designed to make a visual impact and bring architectural beauty to a functional object.

**Luxurious Finishes:** Available in Nickel Satinato and other finishes, including brushed chrome, bronze, and gold, allowing for versatility in different interior settings.

**Ergonomic and Durable:** Though bold in design, the handle is comfortable to use and built to last, combining style with durability.

**Architectural Statement Piece:** Perfect for modern residential or commercial spaces that seek to integrate design and function seamlessly.

Elevate your space with the Edge door handle, where design meets innovation. Whether you’re designing a modern home or a cutting-edge commercial space, Edge promises to add a touch of architectural elegance.
